

**Expression of Interest**  
by  
**the European Organization for Nuclear Research (CERN)**  
and  
**the Center of National Intellectual Reserve (CNIR) at Moscow State University**  
and  
**the Joint Institute for Nuclear Research (JINR)**  
concerning  
**educational collaboration between CERN, CNIR, and JINR**

Recognizing the successful results of the scientific, technical and educational co-operation between CERN, Russia and JINR;

Realizing that educational activities are part of the strategic missions of CERN, CNIR, and JINR, and are important for training the future generation of scientists and engineers;

Following the mutual wish expressed at the meeting between CERN, CNIR, and JINR held on 11-12 November 2013 at CERN concerning the development of educational collaboration between these Organizations;

The Organizations jointly declare their intention to establish and develop a stable and regular educational collaboration, subject to availability of resources, by:

- CNIR participating in the Russian Teacher Programmes for physics teachers, currently organized by CERN in collaboration with JINR;
- Promoting the participation of university students, and of young scientists and engineers, in courses on accelerator and particle physics;
- Supporting extended visits of Russian school children to CERN.

Drawn up and signed in triplicate.
